Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement (IDS) submitted on 6/23/2006 has been considered.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 7-17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 7, the phrase "a capacity characteristic of being able" is not clear, what capacity characteristic mean to the electricity storage device.

Regarding claims 7, 12 and 17, the phrase "at least during an early stage following restart of operation of the fuel cell unit" is not clear, whether an early stage following restart is after the vehicle start by the fuel cell is call the early stage.

Regarding claim 7, the phrase "a state of pause" is not clear.

Regarding claims 12, 17, the phrase "during a pause of operation of the fuel cell unit" is not clear, what kind of operation of the fuel cell.

Regarding claims 12, 17, the phrase "restart operation" is not clear to restart operation of what.

Allowable Subject Matter

4. Claims 7-17 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

5. The following is an examiner's statement of reasons for allowance.

The prior art does not teach the hybrid system as recited in claims 7, 12 and 17, which include a fuel cell unit that generates electricity upon being supplied with a reaction gas, an electricity storage device that stores electric power generated by the fuel cell unit, an electric power load and an electric power control device that controls distribution of electric power supplied to the electric power load from the fuel cell unit and the electricity storage device. The electricity storage device has a capacity, which is being able to supply a requested amount of electric power of the electric power load at least during an early stage following restart of operation of the fuel cell unit from a state of pause of operation and the requested amount of electric power includes a vehicle driving electric power and an accessory electric power. This recitation, in combination with the rest of the recited elements, clearly defines over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
